

ความเร็วไม[้]กั้น 3S / 5M

ความเร็วไม้กั้น 6S / 5M

สร้างเป็นเอกลักษณ์สำหรับผู้ที่ใช้งาน มาพร้อมกับระบบการควบคุมที่สมบูรณ์แบบ ด้วย Motor ที่มีความแข็งแรงทนทานสูงรองรับการใช้งานมากกว่า 100,000 ครั้ง และรองรับอุปกรณ์ต่อพ่วงระบบเซ็นเซอร์ได้ทุกชนิด

Parking lots, toll gates, goods yards, railway crossings, commercial premises, apartment block access

Features

- Intelligent. Auto-detects opening and closing position in high accuracy by both mechanical and electrical limit detector. Combination of special inner working design and smart motor ensures swift and smooth arm movement in falling and lifting to reduce bouching.
- Durable: Extension spring is more durable than compressed spring in heavy-duty site where barrier gate will open and close continously. AC motor can support long-lasting working of barrier gates. Cooling Fan processor is for decreasing working temperature.
- Secure: Arm will be self-locked in any position to avoid unauthorized person to manually operate arm.
- Safe: Arm will reversed back when it meets any obstacle in its movement. Optional rubber arm can avoid any damage when arm touches anything. Additional photobeam further ensures safety.
- Nice-looking: 2.5mm thickness mild steel for housing, good polishing and finishing and further with plastic color coating 10 colors are available.
- User friendly: Interfaces for photocell, loop detector, arm light, ect are reserved. No need to change spring if arm is changed (Eg. Arm is changed from 3m to 6m, the same spring can support.)

Specifications:

Dimension	340*284*1050mm
Power Supply	AC110+-10% / AC220+-10%
Frequency	50HZ / 60HZ
Power Consumption	150Watts, 24V
Working Temperature	-40° to 85°
Related Humidity	<=90%
Remote Control Distance	>30m
Arm Speed	1.5s, 3s, 6s

Order Information:

J	Description/Speed	1.5s	3s	6s
	Max Straight Arm	3m	4m	6m
	Arm Swing Out	Yes	No	No
	Octagon Arm	Yes	Yes	Yes
	Tetragon Arm	Yes	Yes	Yes
	Red Rubber Arm	Yes	Yes	Yes
